Press Release

Scott R. Smith Joins Aspen Avionics as Sales Manager

Latest addition to grow sales in Southeast region

Albuquerque, NM , September 5, 2007: Aspen Avionics, Inc. announced today that Scott R. Smith has joined the company as the Southeast Area Sales Manager. In this position, he will be responsible for sales of the recently announced Evolution Flight Display System and help to establish both a dealer network and customer care programs for Evolution and other company products in his region.

Smith was most recently a regional sales manager for Garmin International where he successfully managed his sales territory, conducted more than 200 seminars for pilots and aircraft owners as well as provided many media demonstration flights of Garmin products.

“Scott’s experience is invaluable to us. His experience working with dealers, demonstrating products to potential customers as well as his vast experience as a sales manager and a pilot make him ideally suited to join Aspen Avionics,” said John Uczekaj, Aspen Avionics’ President and CEO. “We are building a world-class sales team, and Scott is the newest addition.”

Smith earned a degree in business administration from the College of the Ozarks. He is a commercial pilot and flight instructor with approximately 3000 hours of flying time, including more than 200 hours in tail wheel aircraft.

About Aspen Avionics, Inc.

Aspen Avionics specializes in bringing the most advanced technology and capability from the commercial and business aviation markets into general aviation cockpits—and budgets. Our products increase situational awareness and reduce pilot workload, making it even easier and safer to fly in both VFR and IFR conditions. The way we look at it, getting the latest avionics technology shouldn't always mean spending a lot of money—on equipment or installation. At Aspen Avionics, we design products to be affordable, easy to install, and easy to own. The company can be found on the web at www.aspenavionics.com, or may be reached at (505) 856-5034.
