## Aspen Avionics Hosts North 40 Welcome Center At EAA AirVenture

### Aspen Offers Comfort to Pilots at Point of Entry

**Oshkosh, WI, July 29, 2008:** General aviation pilots and passengers who are hot and tired after their arrival at AirVenture will have an opportunity to catch their breath, cool down and rehydrate at the Aspen Avionics North 40 Welcome Center.

Located adjacent to the North 40 aircraft parking area tram stop, the Aspen Avionics Welcome Center will be stocked with cold water, table seating, maps and other AirVenture information, and—best of all—a chance to cool off in front of an industrial-size air conditioner.

“We’re thrilled to be part of the AirVenture community,” said Brad Hayden, Aspen’s Director of Marketing. “AirVenture is a powerful venue to launch and showcase our products, and we are happy to be able to give something back to the campers and attendees, particularly those located in the North 40 area,” he continued.

Aspen’s Cirrus SR22, with an EFD1000 Primary Flight Display (PFD) installed, will be on display next to the Welcome Center tent, and a demo of the PFD will be running inside the tent. The EFD1000 PFD and the EFD1000 Multi-Function Displays (MFDs) will also be on display at the Aspen Avionics booth in Hangar B, 2126.

The Aspen Avionics North 40 Welcome center is open from Saturday, July 26<sup>th</sup>, through the end of the show on Sunday, August 3<sup>rd</sup>.

### **About Aspen Avionics, Inc.**

Aspen Avionics specializes in bringing the most advanced technology and capability from the commercial and business aviation markets into general aviation cockpits—and budgets. Our products increase situational awareness and reduce pilot workload, making it even easier and safer to fly in both VFR and IFR conditions. The way we look at it, getting the latest avionics technology shouldn't always mean spending a lot of money—on equipment or installation. At Aspen Avionics, we design products to be affordable, easy to install, and easy to own. The company can be found on the web at <http://www.aspenavionics.com>, or may be reached at (505) 856-5034. Print-ready images of the Evolution Flight Display are available at <http://www.aspenavionics.com/pressdownloads>
