

Pilot Guide Addendum, PFD 2.2 Software Upgrade

This table lists significant updates to your Evolution Flight Display and how they impact the functionality of your PFD

General Enhancements	EFD Applicability	What it means <i>(Pilot's Guide references are included where applicable)</i>
The capability to disable and remove the ALT, IAS, and BARO fields and associated "bugs."	EFD1000 and EFD1000H PFDs	The installer can disable the Altitude Alerter (ALT), Indicated Airspeed (IAS), and Barometric Pressure setting (BARO) editable fields. When disabled, the fields and bugs are removed from the PFD's upper display and the associated knob selections are not available.
Addition of helicopter-specific airspeeds and associated airspeed markers	EFD1000H PFD	<p>During installation, the Power-Off Vne and Maximum Autorotation airspeed marker values can be set, as appropriate, for display on the PFD's airspeed tape.</p> 
Helicopter-specific Ownship Symbol	EFD1000H PFD	<p>A helicopter-specific Ownship Symbol is displayed on the EFD1000H PFD.</p> 

We thank you for your continued confidence in the EFD1000/500 System and in Aspen Avionics.
