## **Aspen Avionics Announces Packaged Evolution Flight Display Systems**

*Product packages make it even easier and more affordable for aircraft owners to choose the best Evolution Flight Display System for their panels*

**Lakeland, FL, April 14, 2010:** Aspen Avionics, Inc. announced today the rollout of new product packages, comprised of combinations of Evolution Flight Displays, to make it even easier for aircraft owners to choose the retrofit glass display configuration that will meet their specific needs. The packages will be rolled out in conjunction with an attractive customer rebate, making the purchase of the new Aspen packages an even bigger value. Cost incentives are also in place for the purchase of a single Evolution 1000 Pro Primary Flight Display (PFD) or an Evolution 1000 Multi-Function Display (MFD).

The three new product packages are:

### **Evolution 1500 Package – The Most Flexible and Affordable Glass Cockpit System**

The Evolution 1500 Package combines the powerful Evolution 1000 Pro PFD with the versatile Evolution 500 MFD to deliver a full-featured, exceptionally easy-to-use glass panel at the lowest price on the market.

The package is priced at \$14,990. Purchase of the Evolution 1500 package qualifies for a \$1,000 cash rebate.

### **Evolution 2000 Package – MFD Versatility with Full PFD Backup**

The Evolution 2000 Package combines the 1000 Pro PFD and the 1000 MFD to provide a system with MFD versatility as well as the safety and confidence of DuoSafe™ full PFD instrument redundancy. Both the PFD and MFD have identical built-in AHRS units,

Air Data Computers, back-up batteries and emergency GPS units, so if the PFD fails, the pilot simply presses the 1000 MFD's REV button and it becomes a PFD. This Evolution Flight Display pair is an unbeatable duo that provides everything needed in an easy-to-use, full-featured glass cockpit for GA aircraft.

The Evolution 2000 Package lists at \$17,990, and qualifies for a \$2,000 rebate under the current promotion.

### **Evolution 2500 Package – The Total Glass Cockpit System**

The Evolution 2500 Package combines the Evolution 1000 Pro PFD, the 1000 MFD, and the 500 MFD to deliver Aspen's total glass cockpit solution. The 1000 Pro PFD and 1000 MFD provide the safety and confidence of DuoSafe PFD redundancy. The 500 MFD expands the display area to put more flight data in the pilot's primary view. Aspen makes the total glass cockpit experience for GA aircraft both easy-to-use and affordable with retrofit technology and superior compatibility for substantially lower installation costs and total cost of ownership.

The Evolution 2500 Package is \$22,895. A \$3,000 customer rebate is available for this product package.

More information about the Evolution 1500, 2000 and 2500 packages can be found at [www.aspenavionics.com/products](http://www.aspenavionics.com/products).

### **Power Your Panel Rebate**

Aspen is offering a new consumer rebate through June 30, 2010 to launch its new product packages. The *Power Your Panel* program includes cash rebates for the new Evolution packages, as well as \$500 cash back for the purchase of standalone Evolution 1000 Pro PFDs and Evolution 1000 MFDs.

More information about the Power Your Panel rebate can be found at [www.aspenavionics.com/index.php/power-your-panel-10](http://www.aspenavionics.com/index.php/power-your-panel-10).

### **About Aspen Avionics, Inc.**

Aspen Avionics specializes in bringing the most advanced technology and capability from the commercial and business aviation markets into general aviation cockpits—and budgets. Our products increase situational awareness and reduce pilot workload, making it even easier and safer to fly in both VFR and IFR conditions. The way we look at it, getting the latest avionics technology shouldn't always mean spending a lot of money—on equipment or installation. At Aspen Avionics, we design products to be affordable, easy to install, and easy to own. Our web address is <http://www.aspenavionics.com> or we can be reached at (505) 856-5034.

### **About the Evolution Flight Display System**

The Aspen Evolution Flight Display System is an affordable, expandable and upgradable PFD, MFD and hazard sensor cockpit solution for general aviation aircraft. Highly compatible with existing aircraft avionics, the flexible Evolution Flight Display System lets aircraft owners install all Evolution Flight Displays and options at once, or separately, as their needs and budgets permit.

High resolution Evolution Flight Display images are available at <http://www.aspenavionics.com/imagedownloads>.
